

Government of Puducherry
Co-operative Department

The Pondicherry Co-operative Milk Producers Union Ltd. (PONLAIT) implemented the **ABIP-IVF_ET** Project under the **Rashtriya Gokul Mission Scheme**, with the objective of establishing pregnancies in cows using IVF embryos produced with sexed semen. The aim is to enhance milk production and productivity through the propagation of high-yielding animals.

As part of the project, two doses of Cloprostenol injection were administered to 42 cyclic cows/heifers on 17.02.2025 and 28.02.2025, respectively. Nutritional supplements such as *Goumix* and *Tab. Cyclomin-7* were provided to the beneficiaries for their cattle.

On request from milk-pouring members, 220 kg of mineral mixture (1 kg packs) was sold to The Milk Producer Co-operative Society, sourced from M/s. Indian Immunologicals Pvt. Ltd.

Additionally, 28 employees underwent training on "Cost Reduction through Energy Management in Dairy Plants" at **National Dairy Development Board**, Bangalore. This training was sponsored under **The National Programme for Dairy Development scheme for the year 2024–25**.
